

United International University
Department of Computer Science and Engineering
Course Code: CSE 2215 Course Title: Data Structure and
Algorithms I (B)

Class Test – 4
Duration: 30mins (all inclusive)

Date: 18/09/2021
Marks: 20

1. Reconstruct the **Binary Search Tree** from its postorder traversal sequence. Use [15+5]
the values after your student id in the following table as the postorder traversal
sequence. Also calculate the height of your tree.

Student ID	Postorder traversal of a Binary search tree
